

ORTHOTHERM SMART HEATING PAD™

HCPCS: E0221

PRODUCT DESCRIPTION:

OrthoTHERM Smart Heating Pad™ is the most advanced heating pad we've ever built. Combining far infrared heat with healthcare-compatible materials and intuitive features, it delivers deeper warmth, better coverage, and greater peace of mind — whether you're recovering from a tough workout, easing everyday tension, or supporting someone's healing journey.

Trusted in clinical settings and refined for personal use, OrthoTHERM Smart Heating Pad™ gives you professional-grade results, right where you need them.

Infrared Heat That Works Deeper

FAR infrared energy penetrates below the surface to warm tissues more effectively — without feeling too hot on the skin.

Consistent, Controlled Warmth

Smart sensors adjust in real time to maintain steady, even heat throughout the session.

Durable & Easy to Clean

The wipeable exterior is made from medical-grade, chemical-resistant materials designed to hold up to daily use.

Fast Charging with USB-C

Fully charges in 2.5 hours with a visible battery indicator. Runs for up to 2 hours on a single charge.

Weighted for Better Contact

Optimized pressure helps the heat reach deeper — no straps, no shifting, no cold spots.

Set It and Forget It

Choose from 10, 15, or 20-minute sessions. Built-in auto shutoff and overheat protection add extra peace of mind.

3 Heat Levels

105°F | 115°F | 125°F

40.6°C | 46.1°C | 51.7°C

Built for Rehab. Backed by Science.

OrthoTHERM Smart Heating Pad™ takes everything people love about traditional heating pads — comfort, relief, routine — and upgrades it with smarter tech and better materials. No wires to wrestle with, no outdated gel packs, no guessing if it's working. Just deep, reliable warmth where and when you need it most.
